ABOUT ME

With 7+ years of experience in developing high-performance web applications using JavaScript and Python, I excel in translating complex requirements into high-quality, user-centric solutions. I have led cross-functional teams and overseen feature development from requirement gathering, implementation to deployment. My work spans logistics, cybersecurity, data analytics, and enterprise systems. I bring strong foundations in UI/UX, software design principles, architectures, and algorithm. With growing interest in AI research and development, I aim to lead AI solutions integrations and development.

WORK EXPERIENCE

🏢 **Ripsey AI** – Colorado, United States

Senior Software Engineer

[01/05/2025 – 28/07/2026]

Working on building automation software for the logistics industry. Specifically:

- Building frontend dashboards with AngularJS and ReactJS.
- Building backend services for quote extraction from email documents (with Python and Node.js).
- Ensuring code quality and mentoring junior engineers.
- Developed Adaptive AI a tool for prompt engineers for accurate document extraction task.

Lead Software Engineer

[01/08/2026 – Current]

- Led the integration and development of **AI-powered logistics automation solutions** specific for freight forwarders
- Managed a team of engineers, sprint planning
- Led coordination with Developers, Product Owner, Account managers to discuss and plan deliverables

🏢 **Cashback Holdings Limited** – Hongkong SAR, China

Website: <https://www.cashback.io> | Business or sector: Information and communication

Senior Software Engineer (Part Time)

[01/11/2024 – 25/04/2025]

- Worked on building Multi-Level Marketing Dashboards
- Led Frontend architecture decisions
- Built Web3 Tokens, Dashboards
- Developed Telegram Mini App like Hamster Combat

🏢 **Big Brackets Learning Pvt. Ltd** – Kathmandu, Nepal

React JS Tutor

[01/06/2024 – 01/09/2024]

- Provided training on React JS for Bachelor in Information Management Students.

🏢 **Logpoint /Nepal Private Limited** – Lalitpur, Nepal

Software Engineer

[13/09/2021 – 08/11/2024]

LogPoint Search Master (LPSM) - an MSSP software to perform analytics on multiple Logpoints.

- Migrated Old ExtJS framework to new React micro-frontend framework improving the UI/UX.
- Improved installation time by reducing redundant bundles on the LPSM's patch update feature.
- Significantly improved the ease of managing and monitoring multiple Logpoint machines by adding connected Logpoint machines identification and cleanup feature.
- Led development of UEBA, Alert Notifications, Analytics package upload feature which allowed remote management of Logpoint machines easier.
- Tools: Lerna, Webpack, TypeScript, ReactJS, MobX, ExtJS, SASS, Antd; Python, Flask, Celery, Redis, MongoDB, rabbitMQ; Jenkins, ZooKeeper, Hadoop, and Kerberos

Director Console (DC) - an MSSP software to manage configurations on multiple Logpoints

- Designed remote terminal feature on the Director Console frontend to access Logpoint's shell using Socket.io and XTerm.
- Developed monitoring dashboards with Chart JS and D3.
- Developed dynamic schema based forms using Antd
- Led the development of Usage based Licensing model for Director (MSSP)
- Tools: PNPM Workspace with NX, ReactJS, Webpack, TypeScript, SASS, Antd on the frontend, NodeJS, HapiJS, Arango DB on the backend, Jenkins for managing the build, and Zookeeper, Hadoop, and Kerberos for managing distributed systems.

Logpoint - (SIEM/SOAR/UEBA) software

- Added REST APIs, services and configurations for supporting LPSM and Director Console operations on the Logpoint
- Tools: Python, Flask, ExtJS, ReactJS, Shell script, etc.

Overall,

- As a feature lead, created design documents, divided and planned task execution, and collaborated with various teams throughout the organization.
- Led many engineering initiatives like enforcing code standards using GitHub hooks, code organization guidelines, etc.

Other Tools: JIRA, Confluence, Jenkins, Git

 **Bitmosys Pvt. Ltd.** – Kathmandu, Nepal

Frontend Developer - Freelance/ Part time

[01/01/2021 – 01/01/2022]

- Enhanced UI/UX on Microswap (<https://microswap.org>), boosting user interaction.
- Built a landing page for Microfinance (DeFi application on top of the BNB smart chain <https://microfinance.net>)
- Added Storybook for managing reusable React components

Tools: React JS, Next JS, and Web3 JS, TypeScript, SASS, Bootstrap, Storybook

 **Ekbana Solutions Pte. Ltd.** – Lalitpur, Nepal

Frontend Developer

[01/12/2020 – 01/09/2021]

DataCurrenrt - Data Visualization and Analysis Software

- Bootstrapped the project using VueJS and Vue CLI.
- Led Frontend development by discussing UI/UX requirements with the customer and Project Lead.
- Implemented multi-step data analysis User interface, and role-based control, JWT authentication with the Refresh token.
- Tools: Vue JS, Vuex, Vue-i18n, Vue Router, SASS, Bootstrap in the frontend, Python, RabbitMQ, PostgreSQL in the backend.

Graph Visualizations

- Enhanced functionality by incorporating visualizations and document templating capabilities using technologies like Chart.js, Fabric.js, etc.
- Tools: Nest JS, Node JS, Elastic Search, React, TypeScript, Material UI

Insurance KYC application

- Created a KYC form for users to submit their details with live image and location.
- Tools: React Native, Node.JS, MongoDB

I was also involved in fixing bugs on other legacy systems frontend using React JS and Angular JS.

Other Tools: Github, Jenkins

Nepal Mind Factory Consultants Pvt. Ltd – Kathmandu, Nepal

Associate Software Developer

[01/11/2019 – 01/12/2020]

Sankalpa - a municipal data management software

- Migrated the legacy frontend codebase to a new setup, utilizing React and Webpack.
- Created schema-based forms, and municipal data visualization charts using Chart JS and D3 JS and interactive maps using Leaflet JS.
- Enforced application security by implementing a JWT-based authentication mechanism.
- Tools: Redux.Js, Typescript, Bootstrap, SASS, RxJs, Redux Observable, Springboot, Postgres

Nepal Mind Factory CMS website (<https://nepalmindfactory.org>)

- Created a REST API backend with Node JS, Express JS, and MongoDB database.
- Collaborated with peers on the Next JS front-end development, contributing to the creation of our server-rendered application UI.
- Containerized our application using Docker and deployed the frontend on Vercel.
- Integrated role-based access control, a JWT-based authentication mechanism, and a WYSIWYG editor for CMS.
- Tools: React JS, Redux, Redux-Thunk, Node JS, Express JS, MongoDB, Mongoose

Other Tools: Trello with Kanban board, Bitbucket

IT Glance Private Limited – Kathmandu, Nepal

React, and Node Developer Intern

[01/07/2019 – 01/11/2019]

- Learned Git, JIRA, CouchDb / PouchDb, React, NodeJS, ExpressJS, Redux, TypeScript, SASS, Bootstrap, Software Development workflow, and Software Engineering industry practices.
- Developed a Point of Sale system using TypeScript, React, Redux and Express JS and CouchDB.

EDUCATION AND TRAINING

Bachelor of Science in Computer Science and Information Technology

Asian College of Higher Studies, Tribhuvan University [01/06/2015 – 01/12/2019]

City: Kathmandu | **Country:** Nepal | **Website:** www.tuiost.edu.np | **Field(s) of study:** Information and Communication Technologies | **Final grade:** 79.12% | **Level in EQF:** EQF level 6 | **Thesis:** Connector: Connect and Serve, A mobile application to connect service professional and consumers utilizing intelligent advertisement targeting with advertisement categorization.

Cryptography, Artificial Intelligence, Statistics, Probability, Calculus, Linear Algebra, Data Structure, and Algorithm, C, C++, .NET, Java

High School

Capital Higher Secondary School [01/01/2013 – 01/01/2015]

City: Kathmandu | **Country:** Nepal | **Website:** <https://www.neb.gov.np/> | **Final grade:** 74% | **Level in EQF:** EQF level 5

- Studied Mathematics, Biology, English, Nepali, Chemistry, Physics, etc.

AWS Certified Solutions Architect - Associate

AWS [08/02/2025 – 08/02/2028]

Link: https://www.credly.com/badges/c5ff2492-615a-4fa6-a474-7c25a6d84735/linked_in_profile

- Gained a comprehensive understanding of AWS services and technologies

LANGUAGE SKILLS

Mother tongue(s): Nepali

Other language(s):

English

LISTENING C2 **READING** C2 **WRITING** C1

SPOKEN PRODUCTION C1 **SPOKEN INTERACTION** C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Programming Languages

Python / Javascript / C Programming / Shell / Typescript

Soft Skills

Leadership / Critical Thinking / Technical Writing Skills / Teamwork / Interpersonal Skills

Databases

MySQL / MongoDB / Aurora / Arango DB / Couchbase / PostgreSQL

Other Tools

Kafka / JIRA / AWS / GRPC / Git / Redis / Docker / RabbitMQ / Basic knowledge Burp Suit / Linux / Trello

PROJECTS

Connector: Connect and Serve [Academic Project] Cross Platform mobile App, that allows connections with professionals/experts for problem-solving and links businesses, professionals, and service consumers. It allows professionals to create advertisements that are sent automatically to target consumers.

Tools Used: Python, React Native, Firebase

Link: <https://github.com/subashcs/connect>

Advertisement Categorization [Academic Project] A Web API that categorizes ads based on text content; it uses a classification model trained using Naïve Bayes classifier Algorithm. It is a component of the Connector Application.

Tools Used: Python, Flask, Jupyter Notebook

Link: <https://github.com/subashcs/AdCategorizationAPI>

Baaghchaal Game A cross-platform Multiplayer Baaghchaal Game (Traditional Nepali Tiger Goat game) mobile and web application.

Tools Used: Expo, React JS, React Native, Firebase, Nest JS, Websockets

Links: <https://github.com/subashcs/baaghchal> | <https://baghchal.onrender.com>

CONFERENCES AND SEMINARS

[02/01/2019 – 05/01/2019] Kathmandu

Swiss Nepal Technology Transfer Workshop

- Crafted an idea and prototype for a portable rice transplantation machine feasible for hilly areas
- Got selected among the Top 10, out of more than 100 ideas, through different phases

VOLUNTEERING

[01/07/2020 – Current] Robotics Association of Nepal (Lalitpur, Nepal)

General Member

- Volunteered with professionals from different fields to create products blended with AI and Robotics.
- Involved in multiple social service programs and teams like the Mission Oxygen Team, helping hospitals with tools and volunteers, especially during the COVID-19 outbreak.

[01/09/2022 – 01/08/2023] Rotaract Club of Dillibazar Kathmandu (Kathmandu, Nepal)

Club Service Director

- Actively involved in fellowship promoting through organizing events like hiking, trekking, recreational programs, and entertainment programs
- Organized programs to collect funds serving the social cause.

[01/01/2017 – 01/01/2019] ACHS IT Club at Asian College of Higher Studies (Kathmandu, Nepal)

Founding Member

- Organized workshops and seminars on professional development and IT training for BSc CSIT students.
- Organized Mock entrance tests for prospective students
- Collaborated with other college clubs to organize inter-college coding competitions, hackathons, etc.

COURSES AND CERTIFICATIONS

Online Courses

1. Supervised Machine Learning, Coursera, Organized by Stanford, Deeplearning.AI
2. Blockchain Basics, Coursera, Organized by the University of Buffalo, The State University of New York.
3. Smart Contracts, Coursera, Organized by the University of Buffalo, The State University of New York.

HOBBIES AND INTERESTS

Trekking

- Trekking in the mountains to enjoy the beautiful scenery

Coding

- Developing softwares that might be of use
